We connect anglers with successful angling adventures, by equipping them with products that are proven and productive.

Founded in 2017, Tackle HD launched the Hi-Def Craw; the first original representation of an artificial craw, so detailed, it even fooled other living craws. Years later, our team continues to be driven by a vision to fuel our brand with more exciting products thru expansion in key categories.

This year we launched an endeavor to fulfill Tackle HD's mission to become less dependent on imported products and third-party producers, and more self-reliant on our own capabilities in the USA. As of 2021, 90% of our products are

manufactured in the USA in our facility, with our equipment and machinery, and assembled with American labor that we are proud to call our Team.

The Tackle HD Team is also excited to introduce our strategic partnership with Trophy Bass Company. Trophy Bass products are also made in the USA in the same facility as Tackle HD products in St. Clair, Missouri. Trophy Bass products are tournament winning products designed by Casey Scanlon, MLF Big5 Angler and FLW Tournament Champion. Casey's products are proven winners, and we strive to connect anglers nationwide with his great designs.

The team at Tackle HD hopes you enjoy your time on the water.

## TELESCOPIC LANDING NET

The Tackle HD landing net is a must have for any person who enjoys fishing. With 4 different colors available, you can easily see these nets while trying to land your fish. Made with a durable elastic rubber mesh that is 12 inches deep, these nets are extremely durable and will hold up to the abuse that tournament anglers put them through.

- Net dimensions 17" x 19"
- Expanded length 57"
- Collapsed length 36"

## HI-DEF CRAW

The Hi-Def Craw is the most realistic crawfish imitation to hit the market. But it couldn't just look the part... it had to act the part! This bait began as a 3D scan of an actual crawfish and was tweaked to make it functional while never losing its high-definition detail. The lifelike movement of the Hi-Def Craw combined with its anatomically correct detail is what truly sets it apart.
