WELCOME TO RIVERS EDGE

On behalf of Rivers Edge, thank you to all our dedicated and loyal customers. 2023 marks our 27th year of operations in St. Clair, Missouri. We take pride in our pledge of supplying both quality products and superior customer service with integrity and honesty. We look forward to a great year.

ABOUT US

Rivers Edge Products started in 1996 in the town of St. Clair, Missouri operating out of a 25,000 square foot facility, with less than 400 items. Rivers Edge quickly rose to be one the most dominant brands in the outdoor gift market, selling to 6,500 customers worldwide.

In May of 2019, Rivers Edge Products was acquired by REP Outdoor Group LLC. During the same year, Rivers Edge acquired Tackle HD, a fishing gear brand anchored by the “The Original” Hi-Def Craw. In 2020, REP began a manufacturing operation that currently produces 95% of the products marketed under the Tackle HD brand. Thru the acquisition of several small lure companies, Tackle HD has grown many times over, to become a nationally recognized brand.

In 2022, Rivers Edge acquired Osage River, an outdoors brand specializing in outdoor sports storage and gear. Osage River’s flagship item is the shooting sports range bag. It has been a great sense of pride this product has been sold to branches of the military, government agencies, as well as hundreds of thousands of shooting sports enthusiasts.

Today, REP Outdoor Group comprises all three of our in-house brands totaling 2,100 items, operating out of 125,000 square foot facility in the heart of Missouri. With the growth of REP it was decided that we needed to make our customers aware of the relationship between our brands and make them available on one order shipped out of our facility. The 27th Edition of our catalog represents the first time all three brands are marketed and available to our customers under one catalog.

OUR MISSION

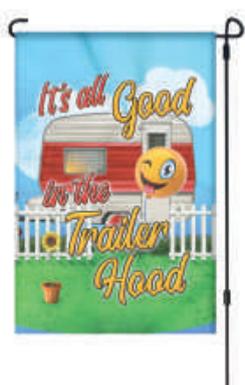

At Rivers Edge, we're passionate about our role in providing innovative and unique gifts for the outdoor enthusiast. We take pride in our pledge of supplying both quality products and superior customer service with integrity and honesty.

TACKLEHD.COM

ABOUT US

We connect anglers with successful angling adventures, by equipping them with products that are proven and productive.

Founded in 2017, Tackle HD launched the Hi-Def Craw; the first original representation of an artificial craw, so detailed, it even fooled other living craws. Years later, our team continues to be driven by a vision to fuel our brand with more exciting products thru expansion in key categories.

This year we launched an endeavor to fulfill Tackle HD's mission to become less dependent on imported products and third-party producers, and more self-reliant on our own capabilities in the USA. As of 2021, 90% of our products are manufactured in the USA in our facility, with our equipment and machinery, and assembled with American labor that we are proud to call our Team.

The team at Tackle HD hopes you enjoy your time on the water.

HI-DEF CRAW

Table Rock

The Hi-Def Craw is the most realistic crawfish imitation to hit the market. But it couldn't just look the part.... it had to act the part! This bait began as a 3D scan of an actual crawfish and was tweaked to make it functional while never losing its high-definition detail. The lifelike movement of the Hi-Def Craw combined with its anatomically correct detail is what truly sets it apart.

NED-MITE

PB&J

Following in the footsteps of the Hi-Def Craw, the HD Ned-Mite is a super-realistic bait created from a 3D scan of a natural sized hellgrammite.
